PROJECTS

ReMeal – Food Donation & Redistribution Platform | *Java, Spring Boot, Spring Security, PostgreSQL, React.js* | Jul 2026–Present

- Developing a full-stack platform connecting **food donors, NGOs and volunteers** to facilitate donation and pickup workflows.
- Implemented **registration/login, JWT-based authentication and role-based access control** using Spring Security.
- Developed REST APIs for **food donation management, NGO claims and volunteer pickup workflows**.
- Integrated PostgreSQL with Spring Boot and connected the React frontend with backend APIs; managed development using Git/GitHub.

Samadhan Setu – Collaborative Problem-Solving Platform | *React.js, TypeScript, Tailwind CSS, Node.js, MongoDB, Figma* | Sep 2026–Present

- Designed the overall **UI/UX architecture** for a platform that crowdsources societal challenges and enables collaborative problem solving.
- Created user portals, dashboards, navigation, forms, cards and key user flows in **Figma**, structured around different user roles.

Library Management System | *Figma, CSS; project stack includes React, Spring, PostgreSQL* | 2025

- Designed UI/UX for book inventory, issue/return, member registration, search and activity-report workflows using Figma.
- Implemented styling and visual layouts using **CSS**.
